

SUMMARY OF FINDINGS

Tealeye Cornejo
Air Safety Investigator (Field)
Western Pacific Region

Date: February 7 -8, 2018

Person Contacted: Federal Aviation Administration - Christopher Thomas and Jene Zullo
NTSB Accident Number: WPR18FA084

Narrative:

Information obtained from the Federal Aviation Administration, indicated that the tower was closed at the time the pilot departed. However, there were controllers in the tower cab at the time. A controller called 911 after they witnessed a portion of the airplane accident.

According to the FAA, controller statements or records concerning the 911 were not required and were not available.
