MY OBSERVATION OR INVOLVEMENT IN THIS MATTER WAS AS FOLLOWS:

I was on my back patio this morning when I heard a loud noise in the sky. It sounded kind of like a sonic boom type noise. I looked up as the plane was nose diving down with a trail of smoke. The best I could tell it looked like the plane was crashing down in an area south of my location near the town Genoa — the best I could tell. I never saw any flames.
