

RECORD OF COMMUNICATION

Michael Huhn
Air Safety Investigator
Western Pacific Region

Date: March 16, 2018
Person Contacted: ForeFlight (Josh B. Pilot Support Team)
NTSB Accident Number: WPR18FA095

Narrative: The following are verbatim extracts of responses provided in two separate emails sent by Josh B. of ForeFlight on this date:

March 16, 2018 (initial)

I was able to identify the ForeFlight account that Mr. Kaupp used. These are the routes he entered into the app in the days preceding 2/22/18 (all times UTC). NOTE: We only receive routes if the device is able to connect to the Internet (WiFi or Cellular data) with ForeFlight Mobile running, after the route has been entered.

2/21/2018 0:41:29 KSBX KRWL KAEG
2/21/2018 0:41:18 KSBX KAEG KRWL
2/21/2018 0:40:56 KSBX KAEG KRKS KRWL
2/21/2018 0:40:31 KSBX KAEG KRKS
2/14/2018 2:19:22 KSBX KAEG
2/14/2018 2:18:51 KPIR KSBX KAEG
2/14/2018 2:18:11 KPIR KSBX 66Y KAEG

This seems to be the extent of the other non-weather information we have.

March 16, 2018 (update)

I was able to identify the ForeFlight account that Mr. Kaupp used, but I don't show that any weather briefings were requested for CGYGY (or C-GYGY) using ForeFlight Mobile prior to the accident flight, or for any flights immediately preceding the accident flight. (note: I also checked whether any other ForeFlight accounts were used to request a briefing for CGYGY, and they were not).

It also does not appear that Mr. Kaupp used his device signed-in to ForeFlight Mobile to view any Weather Imagery prior to his flight.

We do not record whether Mr. Kaupp viewed any "live" weather overlays such as Radar or Satellite Imagery over the Maps view prior to the flight. We also do not record whether he viewed any individual METARs, or TAF or MOS forecasts; however he did view these airports in the days prior to the flight, so it's possible he also viewed that weather information about them. Note: All times in UTC
