Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

The operator has been unable to examine the wreckage, but understands that the airplane was destroyed. It came to rest in an empty field, leaving no damage to structures on the ground or injury to other persons.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

The accident flight departed KSFF at around 9:40 am. The CFI was flying with the two students to a practice area west of Deer Park (KDEW) to introduce the students to basic maneuvers—climbs, turns and descents—and return to SFF. Radar data showed that while the aircraft was at 7000' it entered a high descent rate and impacted the ground shortly thereafter. Circumstances are unknown. The investigation is being conducted by the NTSB and FAA.
