Date: September 5, 2018
Person Contacted: Mr. Javier Olazaba (Responding Paramedic)
NTSB Accident Number: WPR18FA251

Narrative:

Mr Olazaba was one of two paramedics onboard "Medic 66" a ground emergency response vehicle. The following are verbatim extracts of an email sent to the NTSB by Mr. Olazaba today regarding his observations while responding to the accident:

1120: M66 crew crosses path with E62 crew members, FF/Medic A. Craine and Engineer Jasso; E62 crew is walking with 16 y/o female patient to M61 for full trauma assessment. M66 overhears the following statement from 16 y/o patient:

"We were coming in real fast then we hit the ground real, real hard twice. He tried to take off again but flew into the ground"

1131: 49 y/o female patient has full recall of event and makes the following statement regarding the incident:

"The pilot told us he was coming in too fast. We hit the runaway hard twice, skipping off of it. He then exclaimed 'Oh F███! F███k! F███k! We took off again into the air. While in the air, I think we hit something and then went straight down real fast."
