Friday, August 9, 2019

National Transportation Safety Board
505 South 336th Street, Suite 540
Federal Way, WA 98003

ACCIDENT # 0195 INDIVIDUAL#: 003 NAME: [REDACTED] MODE: AVIATION
DATE OF ACCIDENT 09/30/2018 DATE RECEIVED 10/04/2018 PUTREFACTION: No
N # 732MV NTSB # WPR18FA276 CAMI REF # 201800195003
LOCATION OF ACCIDENT Silver City, ID
SPECIMENS Liver, Lung, Muscle, Spleen

AMENDED FORENSIC TOXICOLOGY FATAL ACCIDENT REPORT

CARBON MONOXIDE: The carboxyhemoglobin (COHb) saturation is determined by spectrophotometry with a 10% cut off and confirmed by chromatography.

- NOT PERFORMED

CYANIDE: The presence of cyanide is screened by Conway Diffusion, when the COHb level is equal to or greater than 10% or upon special request. Cyanides are quantitated by spectrophotometry and confirmed by chromatography. The reporting cutoff for cyanide is 0.25 ug/mL. Normal blood cyanide concentrations are less than 0.15 ug/mL, while lethal concentrations are greater than 3 ug/mL.

- NOT PERFORMED

VOLATILES: The volatile concentrations are determined by headspace gas chromatography at a cut off of 10 mg/dL. Where possible, positive ethanol values are confirmed by Radiative Energy Attenuation.

- NO ETHANOL detected in Muscle
- NO ETHANOL detected in Liver

DRUGS: Specimens are analyzed using immunoassay, chromatography, mass spectrometry, or spectrophotometry. Concentrations (ug/mL) at or above those in () can be determined for, but not limited to, the following drugs: amphetamines (0.010), opiates (0.010), marijuana (0.001), cocaine (0.020), phencyclidine (0.002), benzodiazepines (0.030), barbiturates (0.060), antidepressants (0.100), and antihistamines (0.020). Drugs and/or their metabolites, that are not impairing or abused, may be reported from the initial tests. See the CAMI Drug Information Web Site for additional information (<http://jag.cami.jccbi.gov/toxicology/>).

- Buprenorphine NOT detected in Liver
- Buprenorphine NOT detected in Muscle
- Norbuprenorphine NOT detected in Liver
- Norbuprenorphine NOT detected in Muscle
- Loratadine detected in Liver
- Loratadine detected in Muscle
- Desloratadine detected in Liver
- Desloratadine detected in Muscle
