NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

On entry to field the engine made a popping noise and vibration. Then plane started to slow down. I added power and engine vibration increased. I then turned approximately 60° to head towards near by runway. The plane continued to slow down. Tried to add more power then vibration increased. Vibration went away as engine stopped running completely. Then plane impacted the ground.
