## Narrative:

The following is a summary of conversation with Mr Ed Brown of Heli-Mart.

Mr Brown said that Heli-Mart has a supply of stock parts. The MD-369 tail rotor fork in question (PN: 369D21701-21) was a stock part and sent to Hel-Tech for overhaul. Heli-Tech returned the overhauled tail rotor fork to Heli-Mart. On Sept 20, 2016, Heli-Mart shipped the part to Makani Kai (now Hawaii Aviation). Makani Kai's name was changed to Hawaii Aviation (since 2016). Mr Brown said that Makani Kai and Hawaii Aviation are associated (DBA) with Schuman Aviation.
