Subject: MD369 Elastomeric Bearing SNs?)WPR18LA221)

Morning Ed
Hope you had a good weekend

As discussed, we were able to pull the SNs off the 3 remaining elastomeric fork bearings from the accident helicopter. If you could please determine whether any of these were the ones that you sold separately to Makani Kai/Magnum, that would be appreciated and helpful. They have a shelf life of 5 years, but I really can't give you an accurate calendar search window, so if you have a way of searching all sales through 8/8/18 (the day of the accident) that's my best guess.

[REDACTED]

The accident fork was installed on the helo in Sept 2016.
The previous fork was installed in Aug 2016 (yes just a month prior) - it experienced a fork bolt failure, which prompted the Sept 2016 fork replacement.

Accident helo TR Fork Bearings
Lord PN LB2-1056-1-9
MDHI PN 369A1724-7

Fork Location	SN	Remarks
Inner	LK23819	Remained installed
Inner	LK23746	Remained installed
Outer	LK23918 *	Recovered. Separated from fork but remained captive
Outer	Unknown	Not Recovered- separated in flight and lost

Thanks!
Anything you need, please ask
