Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Fuselage was cracked in half, right wing was ripped off, horizontal tail section destroyed, canopy destroyed

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Had to deviate to alternate airport, due to weather, after long cross country flight. Was attempting to reach Lida Junction but was in continuous sinking air. Realized I would not make it to Lida and made choice to put it down on the best road available to me. I chose a 15ft wide dirt service/wash road and set up to land to the west (into the wind and on uphill slope). I believe one of my wings struck terrain just prior to touching down which caused a violent ground loop. The plane cartwheeled and came to rest upside down with me trapped in the cockpit.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I could have made decision to deviate to another airport (Bishop) to the west and further away from weather. I also could have turned around before I was out of reach of the dry lake bed complex known as Silver Peak and landed there.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
