

SUMMARY OF FINDINGS

Tealeye Cornejo
Air Safety Investigator (Field)
Western Pacific Region

Date: March 16, 2019
Person Contacted: Witnesses
NTSB Accident Number: WPR19FA096

Narrative:

Sarabia Family [REDACTED]

According to the family - 3 of the 5 family members were inside and did not witness the accident. All they heard was the sound of the engines and reported that they were very loud. The other two were outside. One person was in the front yard and saw the airplane in a nosedive but did not witness the impact as it was obstructed by the house. The other witness saw the airplane in a nosedive, and saw it rotate.

The Hickmon Family [REDACTED]

They were traveling in their car and saw a low-flying airplane that appeared to be struggling. They saw the airplane upside down and spiraling in a nose low attitude. They were not able to hear the airplane.
