

RECORD OF CONVERSATION

Albert P. Nixon
Senior Aviation Accident Investigator
Western Pacific Region

Date: April 9, 2019
Person Contacted: Michael Gonzales (ADC Security Officer)
NTSB Accident Number: WPR19FA106

Narrative:

During a conversation with Michael Gonzales, the following is a summary of what he stated:

- During their watch, the officer next to him said an airplane taking off went sideways, then nosedived and crashed.
- He instructed him to call 911.
- He saw a big dust cloud.
- He traveled by foot and was the first on the accident scene.
- The airport ops guys then showed up.
- Black smoke was present.
- The top of the canopy was gone.
- He was about 20 ft from the main wreckage.
- There was a westerly wind.
- The wings were intact.
- The fire truck arrived and put foam on the airplane.
