

RECORD OF CONVERSATION

Joshua D. Cawthra
Senior Aviation Accident Investigator
Western Pacific Region

Date: 5/17/2019
Person Contacted: Marguerite Josefsohn
NTSB Accident Number: WPR19FA146

Narrative:

During a telephone conversation, Mrs. Josefsohn reported that her husband had no known medical issues and was fairly fit. She reported that he exercised daily, always went to the doctor when needed, etc. She also reported that he was taking blood pressure medication and suffered from insomnia, which he normally took a half of a sleeping pill. She did not recall what the sleeping aid was but didn't think he had taken any for some time.
