### **Narrative:**

N269AG departed TOA at 1543Z on a right down wind. The pilot's friend and wife called concerned that N269AG had not arrived at his destination O22 and had not responded to phone calls or text messages. SCT was notified of a possible downed aircraft. SCT tracked a VFR target to 27 miles north of Los Angeles and were not able to track it farther north of that position. ZLA replied with negative services for N269AG. PRC AFSS also replied with negative services for N269AG.
