Date Report Received

2/1/19

On January 19, 2019. Accident report Depart P19, Chandler, Arizona at 8:30 AM with three other aircraft for a flight to a private airstrip near Yuma Arizona. After lunch began flight time back to P19, after approximately 30 minutes into flight engine began running rough , pulled power back, I increased fuel mixture, turned on emergency fuel pump ,turned on emergency back up battery for ignition. No change. I lost all oil pressure and it went to 0. The engine began to vibrate and lost all power, I was approximately 1000 feet, The plane started to glide at 65 miles an hour looking for a landing spot, found a clearing in the open desert and set up an approach, after touchdown I impacted a small ditch the aircraft overturned on its back. I turned off all switches except the radio which was still working. I climbed out side window after unhooking my safety belts, fuel was leaking from the fuel tanks on to the ground fortunately no fire and I walked away. I had called my friends on the radio on the dissent with the Mayday call. that my engine has stopped and I was make an emergency landing. I made several mayday calls on the radio 121.5. My friends found me in the desert and rescued me later in the afternoon and we returned home
