

RECORD OF COMMUNICATIONS

Michael Huhn
Air Safety Investigator
Western Pacific Region

Date: May 13, 2020
Person Contacted: Mr. Aleksey Sokirkin (owner/pilot)
NTSB Accident Number: WPR19LA105

Narrative:

On this date the NTSB emailed the pilot the following question:

"In looking at the track data from your flight, can you tell me what these low level maneuvers that took place about 15 minutes and 5 miles east of the accident site were for?"

The pilot responded by telephone a few minutes later. He repeated his previous mention that he was a hunter, and that he used the airplane to help him locate and examine hunting locations. These particular maneuvers on that day were an episode of that nature/mission.
