Provide as much detail as possible.</p> <p>Departed Gillespie Field at 1229 local time.</p> <p>I was flying inbound towards the Julian VOR. I was planning to fly the VOR practice approach, in VFR conditions, to become more familiar with the procedure. At about 6,000 feet the RPMs went above 3,000 so I pulled the prop control back to 2,400 RPM. I then requested of SOCAL that the practice approach be terminated and told them that I would be returning to Gillespie Field, believing that the governor was acting erratically. I was soon about 5 miles south of the Ramona airport and the airplane began to shake and I knew that I had other problems. We notified Ramona Tower of our emergency and told them that we were coming in. I tried to make it back to the runway but came short and landed in a field about 1/8 mile south of the runway.</p> |                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                        |
