Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On June 15, 2019 I was PIC of N777RK with Robert (Bob) Priest, Sr. (front-right seat) and Oliver Kirkeby (left-back seat) on a recreational flight from Cable Airport (KCCB) to Montgomery-Gibbs Executive Airport (KMYF).

I departed on runway 24 at approximately 0940 and after takeoff the engine began to sputter. Bob and I immediately double checked the position of the fuel nob and confirmed it was at full flow. In that moment the engine sputtered again, and power was drastically reduced. I immediately made the decision to turn left and attempt to land runway 6. The turn was almost complete when Bob called out full flaps and actuated the lever to full flaps. I decided that the safest option given altitude and time was to land the airplane on the south taxiway adjacent to runway 24. After touchdown, I made the decision to use the little flight control and time I had left to avoid the building east of Cable airport.
