NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

I was flying VFR from TRK to E16.
 Departure at TRK was at 7:38 pm. Climb initially to 11500, then descending to 4500 for enroute, then climbing to 6500. At 5500 ft at a heading of 210°, the aircraft engine had a sudden drop in RPM, then setting back to full RPM. I went through a checklist and did the following: switch tanks, fuel pump on, carb heat on. I checked for oil pressure, temp and fuel pressure. All were in green. Primer was locked. Checked ignition switch (L/R). I then tried to lower the power and change settings to maintain some power. In less than a minute the engine completely quit. Restart was unsuccessful. I had immediately asked for a vector to the closest airport from NORCAL which as I was flying with flight following. The controller gave me a 080 vector to K700 which I immediately executed. The controller also advised me that my second best option would be to land on HWY 99. My foreflight on iPad indicated to me that I would be short of K700 which was confirmed by my (visual) calculations and altitude. I kept flying the aircraft at 85 KIAS. After deciding to land on 99 there was an overpass in front of me and HWY 99 made a left curve. I flew a few degrees to the left and barely cleared the overpass by touching the top of a tree. I then turned to the right to

Contd of NARRATIVE

... to try to bring the aircraft down in the direction of the traffic. HWY 99 was very busy at this time. In order to go to the right of the freeway I hit a light pole which were in about 50 ft. distance in the middle of the HWY. The right wing partially separated and the aircraft turned upside down and crashed between cars on the right side of the ~~freeway~~ HWY. There were some flames immediately. I disembarked the airplane through the side window. Shortly thereafter the aircraft exploded.

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE
