

NATIONAL TRANSPORTATION SAFETY BOARD

NTSB Form 6120.1

PILOT/OPERATOR AIRCRAFT ACCIDENT/INCIDENT REPORT

Email the pilot/operator aircraft accident/incident report to the investigator-in-charge of your accident/incident. If email is not available, mail the report per the instructions below.

If your accident/incident occurred in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Maryland, Delaware, Virginia, West Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Mississippi, Alabama, Georgia, Florida, the District of Columbia, Puerto Rico, or the US Virgin Islands, send the form to: NTSB, ERA, 45065 Riverside Parkway, Ashburn, VA 20147.

If your accident/incident occurred in Ohio, Michigan, Indiana, Wisconsin, Illinois, Minnesota, Iowa, Missouri, Arkansas, Louisiana, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Colorado, or New Mexico, send the form to: NTSB, CEN, 4760 Oakland Street, Suite 500, Denver, CO 80239.

If your accident/incident occurred in Montana, Wyoming, Idaho, Utah, Arizona, Nevada, Washington, Oregon, California, Hawaii, or the territories of Guam or American Samoa, send the form to: NTSB, WPR, 505 South 336th Street, Suite 540, Federal Way, WA 98003.

If your accident/incident occurred in Alaska, send the form to: NTSB, ANC, 222 West 7th Avenue, Room 216, Box 11, Anchorage, AK 99513.

Rules pertaining to notification of aircraft accidents and incidents, as well as overdue aircraft are found in 49 *Code of Federal Regulations* (CFR) Part 830 http://www.ecfr.gov/cgi-bin/text-idx?c=ecfr&tpl=/ecfrbrowse/Title49/49cfr830_main_02.tpl. These rules state the authority of the NTSB, define accidents, incidents, injuries, and other terms, and provide procedures for initial and immediate notification of accidents and incidents by aircraft pilots/operators.

A. APPLICABILITY

The pilot/operator of an aircraft shall send a report to the office listed above, based on accident/incident location; immediate notification is required by 49 CFR 830.5(a). **The report shall be filed within 10 days after an accident for which notification is required by Section 830.5, or after 7 days if an overdue aircraft is still missing.**

An aircraft accident, as defined in 49 CFR 830.2, is determined as an occurrence that involves a fatality or serious injury, or substantial damage to the aircraft. For occurrences that do not involve a fatality, the determination that the occurrence is an accident can be appealed by writing to the Director, Office of Aviation Safety, NTSB, 490 L'Enfant Plaza, S.W., Washington, D.C. 20594.

INSTRUCTIONS TO PILOTS/OPERATORS FOR COMPLETING THIS FORM

It is necessary that **ALL** questions on this report be answered completely and accurately.

If more space is needed, continue on a blank sheet of paper.

Nearest City/Place: Use the name of the nearest community in the state where the accident/incident occurred.

Date/Time: Indicate the date and local time of the event. Be sure to indicate the time zone.

Phase of Operation: Indicate the phase of operation during which the accident/incident occurred.

Aircraft Information: Enter aircraft make and model information as indicated on the aircraft registration certificate, including series. If the involved aircraft is certified as "amateur-built," include the name of the producer of the kit or plans, unless an NTSB employee instructs otherwise.

Maximum Gross Weight: Enter the certificated maximum gross weight for the aircraft involved in the occurrence. This should be the same as the maximum gross weight indicated on the aircraft weight and balance documents.

Engine: Enter engine make and model information as indicated on the engine data plate.

The NTSB uses this form for aircraft accident prevention activities and for statistical purposes. NTSB regulations (49 CFR Part 830) require that **ALL** questions be answered completely and accurately. Completion of this form will take approximately 60 minutes. The NTSB does not guarantee the privacy of any information provided in this form. You need not complete this form unless it displays a valid OMB control number, in accordance with 5 C.F.R. § 1320.5(b), which applies to this collection of information.

B. DEFINITIONS

1. "Aircraft Accident" means an occurrence associated with the operation of an aircraft that takes place between the time any person boards the aircraft with the intention of flight and all such persons have disembarked, and in which any person suffers death, or serious injury, or in which the aircraft receives substantial damage. For purposes of this form, the definition of "aircraft accident" includes "unmanned aircraft accident," as defined at 49 CFR 830.2.

2. "Substantial Damage" means damage or failure that adversely affects the structural strength, performance or flight characteristics of the aircraft, and that would normally require major repair or replacement of the affected component. NOTE: Engine failure or damage limited to an engine if only one engine fails or is damaged, bent fairing or cowling, dented skin, small puncture holes in the skin or fabric, ground damage to rotor or propeller blades, and damage to landing gear, wheels, tires, flaps, engine accessories, brakes, or wing tips are not considered "substantial damage" for purposes of this report.

3. "Operator" means any person who causes or authorizes the operation of an aircraft, such as the owner, lessee, or bailee of an aircraft.

4. "Fatal Injury" means any injury that results in death within thirty (30) days of the accident.

5. "Serious Injury" means any injury that (1) requires hospitalization for more than 48 hours, commencing within 7 days from the date the injury was received; (2) results in a fracture of any bone (except simple fracture of fingers, toes, or nose); (3) causes severe hemorrhages, nerve, muscle, or tendon damage; (4) involves injury to any internal organ; or (5) involves second- or third-degree burns, or any burns affecting more than 5 percent of the body surface.

Type of Fire Extinguishing System: If a fire extinguishing system was used to fight an aircraft fire, specify the type(s) of extinguishing system(s) used. Examples include handheld extinguisher, engine fire bottle, cargo/baggage compartment fire suppression system, or airport emergency ground equipment.

Owner/Operator Information: Enter the owner information as shown on the registration certificate. Commercial operators, enter the operator information, including "doing business as" when applicable, as shown on the operator certificate.

Revenue Sightseeing Flight: Indicate whether the accident aircraft was conducting revenue sightseeing operations under 14 CFR Part 91 at the time of the accident.

Air Medical Flight: Indicate whether the accident flight was being conducted for the purpose of carrying medical personnel, patient(s), or organs.

Public Aircraft: Federal, state or local government flight operations such as official travel, law-enforcement, low-level observation, aerial application, firefighting, search and rescue, biological or geological resource management, or aeronautical research. Indicate whether the flight was conducted by the armed forces, federal, state, or local government.

Purpose of Flight: 14 CFR Parts 91, 103, 133, 136, and 137: Indicate the type of operation that was being conducted at the time of the occurrence using the following definitions:

AERIAL APPLICATION—Operations using an aircraft to perform aerial application or dispersion of any substance. Examples include agricultural, health, forestry, cloud seeding, firefighting, insect control, etc.

AERIAL OBSERVATION—These flights include aerial mapping/photography, patrol, search and rescue, hunting, highway traffic advisory, ranching, surveillance, oil and mineral exploration, criminal pursuit, fish spotting, etc.

AIR DROP—Aerial operations, other than aerial application, that are intended to release items in flight.

AIR RACE/SHOW—Includes any flight operations conducted as part of an organized air race or public demonstration.

BUSINESS—includes all personal flying without a paid professional crew for reasons associated with furthering a business, including transportation to and from business meetings or work. This does not include corporate/executive operations, air taxi, or commuter operations.

EXECUTIVE/CORPORATE—Company flying with a paid, professional crew.

FERRY—Non-revenue flight under a special flight or "ferry" permit. Refer to 14 CFR 21.197 for details of special flight permit issuance.

FLIGHT TEST—Flight for the purpose of investigating the flight characteristics of an aircraft/aircraft component or evaluating an applicant for a pilot certificate or rating.

INSTRUCTIONAL—Flying while under the supervision of a flight instructor or receiving air carrier training. Personal proficiency flight operations and personal flight reviews, as required by federal air regulations, are excluded.

OTHER WORK USE—Miscellaneous flight operations conducted for compensation or hire such as construction work (not 14 CFR Part 135 operation), parachuting, aerial advertising, towing gliders, etc.

PERSONAL—Flying for personal reasons (excludes business transportation) including pleasure or personal transportation. This also includes practice or proficiency flights performed under flight instructor supervision and not part of an approved flight training program.

POSITIONING—Non-revenue flight conducted for the primary purpose of relocating the aircraft. Examples include moving the aircraft to a maintenance facility or to load passengers or cargo etc.

UNKNOWN—Use only if the primary purpose of flight is not known.

Other Aircraft—Collision: For all accidents involving a collision with another aircraft, including parked aircraft, check "Collision with other aircraft" under Basic Information and complete this section indicating details about the OTHER aircraft involved in the collision.

Airport Information: Complete this section if the accident/incident occurred on approach, landing, takeoff, departure, or within 3 statute miles of an airport. Please refer to the FAA Airport/Facility Directory or other official source for airport information.

Airport Identifier: Provide the official 3 or 4 character airport identifier number.

Runway: Indicate the number of the runway used, including L, R, or C if applicable.

Runway/Landing Surface: Indicate the type of intended runway/landing surface (do not indicate surface conditions). If the surface type was mixed, check all that apply.

Condition of Runway/Landing Surface: Indicate the condition of the intended runway/landing surface. If multiple conditions existed at the time of the accident, check all that apply.

Weather Information at the Accident/Incident Site: Indicate the weather conditions reported at the accident/incident site at the time of occurrence. If no weather reporting was available for the accident/incident site, indicate the reported conditions at the nearest reporting site. Specify the weather reporting site identifier, the observation time, and distance from the accident/incident.

Sky/Lowest Cloud Condition: Indicate the height above ground level of the lowest cloud condition present at the time of the accident/incident and whether coverage was reported as few, scattered, broken or overcast. Also indicate the height above ground level and coverage of the lowest cloud ceiling present at the time of the accident/incident (reported as broken or overcast).

NOTAMs (D and FDC), AIRMETs, SIGMETs, PIREPs: Describe all NOTAMs (distant (D) or Flight Data Center (FDC), if known), AIRMETs, SIGMETs, and PIREPs in effect near the accident/incident.

Flight Crewmember Information: Indicate the category that best describes the capacity served by this flight crewmember at the time of the accident. The designators "Flight Crewmember 1" and "Flight Crewmember 2" do not refer to a specific pilot position or responsibility. If more than one pilot is aboard, they may be entered in any order and their capacity entered as appropriate.

Degree of Injury: See Definitions on the top half of Page 1 of the instructions. Minor injury is not defined. If an injury does not meet the criteria for another injury category, select Minor.

Date of Last Flight Review or Equivalent: Enter the date of the most recent flight review, or equivalent, completed by this pilot. Refer to 14 CFR 61.56 for accepted equivalents.

Type Ratings: List all type ratings on the pilot certificate. If the pilot holds no type ratings indicate "none." If the pilot holds a pilot certificate other than student and was flying an aircraft requiring an endorsement, enter the type and date of any logbook endorsement(s) for that aircraft. See 14 CFR 61 for examples of required endorsements.

Student Endorsements: If the pilot holds a student pilot certificate, enter all solo endorsements and dates on the student pilot certificate.

Flight Time: Complete the flight time matrix. Solo flight time should be included as "Pilot-in-Command (PIC)" and all dual flight instruction given should be included as "Time as Instructor."

Additional Flight Crewmembers: Complete this section if there were more than two required flight crewmembers on the aircraft. This also includes a check airman performing official duties but does not include cabin crew. State the capacity served by each included crewmember at the time of the accident.

Passenger(s)/Other Personnel: Enter identification and injury severity information for all passengers, cabin crew, and other personnel involved in the accident. See Page 1 of the instructions for the official definition of injury levels.

Several questions throughout the form allow for multiple responses; when appropriate, choose all responses that apply.

These instructions only pertain to major issue areas covered by NTSB Form 6120.1 Pilot/Operator Aircraft Accident/Incident Report. For additional definitions of questions and responses, please refer to www.nts.gov.

Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

PROP STRIKE FROM AIRCRAFT FLIPPED OVER ON TAXI-WAY. STRUCK NOSE, SLIGHT RIGHT WING TOUCH, THEN TOTALLY FLIPPED ONTO TAXI-WAY ON ITS WING(S).

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

MISSION: LONG BRIEFING IN FLIGHT SCHOOL. TAXI OUT AT KWJF AIRPORT. DAUGHTER IN LEFT SEAT, INSTRUCTOR IN RIGHT. INSTRUCTOR PRACTICED FIRST FOR WARM-UP & ILLUSTRATION IN PARKING AREA. THEN, INSTRUCTIONAL TAXI BEGAN AT RELATIVELY SLOW SPEEDS [A BRISK WALK, AT REDUCED POWER SETTINGS] TO RUNWAY 06 AFTER TWO MONTH HIATUS [STUDENT/DAUGHTER IN SCHOOL AT UC SANTA BARBARA, RETURNED FROM HOME FROM CHRISTMAS BREAK]. INFORMATION JULIET HAD WINDS 050@12 KNOTS. THE WIND-SOCK SHOWED THE SAME. WE [ALL 3 STUDENTS IN MY SCHOOL, AGE 23] INTENDED FLY WITH THEIR INSTRUCTOR/DAD ON THIS DAY.

BRIGHT SUN IN EYES TAXIING OUT, AND I HAD SOPHIE [DAUGHTER] WORK WITH RUDDER PEDALS TO GET A RE-FEEL OF AIRCRAFT HANDLING ON THE ALPHA TAXI-WAY [FLAT-MACADAM/ASPHALT] FROM OUR HANGAR WHERE WE HOUSE THIS AIRCRAFT. AFTER TAXIING AROUND THE TRANSIENT AREA TO WARM UP, WE CALLED FOR TAXI TO RUNWAY 06.

CLOSE TO THE END OF THE TAXI-WAY, SHE SAW SHE WAS GOING OFF-ANGLE OF THE NORTH SHOULDER AND HIT THE RUDDER PEDALS' TOPS [BRAKES] EXTREMELY QUICKLY RATHER THAN STEER BACK TO CENTERLINE OF TAXI-WAY. AIRCRAFT FLIPPED OVER INSTANTLY ON NOSE, THEN PIVOTED SLIGHTLY RIGHT ONTO ITS RIGHT WING [MOMENTARILY] IN VERTICAL, AND WITH WIND-ASSIST, CAME TO REST INVERTED ON TAXI-WAY FACING OPPOSITE DIRECTION. THE INSTRUCTOR PILOT COULD NOT INTERVENE FAST ENOUGH! DAUGHTER AND INSTRUCTOR PILOT [FATHER] EXITED QUICKLY WITH MINOR BUMPS/SCRAPE TO PERSONNEL.

DAMAGE ASSESSMENT: PROPS BENT-BACK ON BOTH SIDES, WITH SMALL CRACK-BENDING AT COWLING. THE RIGHT WING IS DENTED AT TIP AT TWO-FEET TO INWARDS, ONE OF THE RIGHT WING STRUTS IS BENT AT 30 DEGREE ANGLE AND SHOWS DISTORTION ON THE OTHER STRUT AT WING MOUNT, WINDSHIELD CRACKED SLIGHTLY, TOP OF AIRCRAFT (FABRIC) WITH LIGHT SCRATCHES, TOP OF VERTICAL STABILIZER AND RUDDER ARE BENT AT TOP [1 FOOT OR SO].

A/C WAS RE-ARIGHTED USING APPROXIMATELY 8 MEN AND TOW-TRUCK WITH STRAP, THEN TAXI-TOW BACK TO OUR HANGAR BY JEFF LANGDON [HI-DESERT AVIONICS] AND TOW VEHICLE. AIRCRAFT IS IN HANGAR PRESENTLY.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

THE INSTRUCTOR COULD HAVE INTERVENED AT THE SLIGHTEST CONFUSION AND LACK OF CORRECTION(S), AND RETURNED THE AIRCRAFT TO THE HANGAR.

THE INSTRUCTOR COULD HAVE IMMEDIATELY RETURNED TO HANGAR TO FLIGHT SCHOOL AND DISCUSS WITH MORE EMPHASIS ON TAXIING/HANDLING IN GROUND SCHOOL ONLY ABOUT LIGHT, TAIL-WHEEL AIRCRAFT. TALK ABOUT YOKE POSITION AND CROSS-WIND CONTROL INPUTS NECESSARY WHEN IN DIFFERENT QUADRANTS OF WIND DIRECTION. DISCUSS ANY/ALL CROSS-WINDS or TAIL-WIND or HEAD-WIND CONDITIONS WITH IMPORTANCE TO TAIL DRAGGER SAFETY AND LIGHTNESS OF AIRCRAFT. DISCUSS BRAKING, TECHNIQUES. DISCUSS HIGH PROPENSITY OF STEEL BRAKES TO GRAB WHEN ASKED TO IN A PINCH.

ONLY THEN, AND WELL BEFORE FLYING: DEMONSTRATE TO STUDENT BY TAXIING/BRAKING AROUND THE AIRPORT WITH MORE TURNING AND TAXIING/BRAKING TECHNIQUE EMPHASIS. HAVE STUDENT FOLLOW ALONG GRADUALLY, SLOWLY GETTING THE CORRECT FEEL AND PLACEMENT OF CONTROLS AT ALL TIMES BEFORE FLYING. STUDENT SHOULD SHOW TOTAL CONFIDENCE AND CAPABILITIES OF TAXIING BEFORE ANY AIRBORNE TIME. BURN THE FUEL TO GET IT! REGRESSION MEANS RETURNING TO THE HANGAR FOR FURTHER DISCUSSION.

RETURN TO HANGAR AS SOON AS ANYTHING IS UNCOMFORTABLE IN THE SLIGHTEST. OBTAIN SUNGLASSES (if thought necessary) OR HAT(s) TO REMOVE GLARE FROM WESTERING SUNLIGHT. See "additional information" below, as well.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

ADDITIONAL INFORMATION (Please type or print in ink)

Use this space if additional space is needed for any answers.

From Owner/Operator section continued:

THE INSTRUCTOR PILOT JUST RETURNED FROM BALTIMORE FOR FLIGHT TEST WORK [12/3-12/15/2019, FOR 2 WEEKS, 9 SORTIES, 30 HOURS] WITH A GII AIRCRAFT FOR NORTHROP GRUMMAN AEROSPACE. THERE ARE HUGE DIFFERENCES BETWEEN AIRCRAFT . . . THE INSTRUCTOR HIMSELF COULD HAVE FLOWN THE C140 AIRCRAFT FOR A SORTIE OR TWO JUST FOR RE-FAMILIARIZATION "ON-HIS-OWN" TO SHARPEN THINGS UP A BIT, INCENTIVISING HIS INSTRUCTION ON THIS DAY. SUCH A RE-FAM MAY HAVE VERY WELL PROVIDED ADDITIONAL "EMPHASIS ITEMS" BEFORE THIS TAXI EVENT HAPPENED.

STUDENT [LEFT SEAT] COMMENTS AS FOLLOWS:

Hello, my name is Sophie Rowe. On December 16th, I was in a taxi accident at Foxfield. I was with my dad, Rob Rowe. Before we were to fly the airplane, my dad gave my sister, brother and I a walk around to check the plane. My dad was hoping to buy some time for the winds to die down even further. I was picked first to fly in the airplane. My dad was going to fly me around in the antelope valley, and he was going to do some landings. We did the basic procedures to get the airplane warmed up and check the signals and wing controls; they all worked. When we were in the airplane, we made the radio call to taxi down the alpha taxiway. As we were going down the taxiway, my dad told me to practice taxiing a little going slightly from left to right on the centerline while using the rudder pedals. I was told to make sure to not go into the ditch off the taxi way. When we went far to far off to the right of the taxiway, we were heading to the ditch on a sharper turn. I hit both brakes hard and the yoke was not at aft/as aft as it should have been. One second we were upright, the next we were upside down. My dad told me to get out on the side, I unbuckled my seatbelt and opened the side door to crawl out. After that, the trucks came to check on us.

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE**Date of this Report**12/19/2019*mm/dd/yyyy***Name of Pilot/Operator:** ROBERT A. ROWE**Signature:** _____
