Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft damage substantial and probably not repairable. Damage to the roof of neighbors tack shed (approximately \$1000) Repairs have been completed

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

This was the first attempted take off from this location in this aircraft. Field conditions were moderately smooth grass 750 ' of useable runway with 4 ' fences at each end. After extensive pre-flight inspection and warm up and run up, take off was initiated and lift off occurred at approximately 500 ' after which the right main wheel impacted a steel fence post causing the aircraft pitch down, yaw right and roll slightly right. Left aileron and rudder were applied but the controls almost immediately felt loose and the left wing stalled causing a cartwheel left turn ending into the side roof of a small shed.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

More take off and landings at a longer runway to assure actual required take off lengths would have provided the information better than relying on published capabilities of the aircraft

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
