Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Following mechanic inspections, damage to the aircraft included a collapsed nose gear, bent propeller and damage to the left wing. No property damage or bodily injury occurred.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Narrative for flight in N341MR from KCMA to CA20 on 3 June 2020

The plan was to fly from KCMA Camarillo, CA to CA20 Eagle's Nest in Lone, CA. The weather was forecast VFR at departure, enroute and arrival locations. I estimated an enroute time of 1:47 at 8500 ft using 30 gallons of fuel. An aircraft preflight was conducted with the fuel gauges showing 13 gallons in the left tank and 17 gallons in the right tank, for a total of 30 gallons. I visually inspected the tanks noting they had fuel and added 10 gallons of fuel, for a calculated total of 40 gallons.

Departure from KCMA at 2:25 p.m. and enroute operations were uneventful. At approximately 4 p.m., descending through 6500 ft enroute to CA20, the engine began to sputter and eventually quit about 10 miles south of the airfield. The fuel gauges read 0 left and 17 right. All attempts to restart the engine were unsuccessful and I established a glide profile to reach the airport. Unable to reach the runway, a forced landing was made in a field less than a mile south of the airport.

Upon inspection of the fuel tanks, I could not visibly see any fuel. The fuel gauges read 0 left and 5 right respectively.

No property damage or bodily injury occurred.
