Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Burned to the ground, destroyed by fire,
left wing struck propeller of a stationary plane on the field

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I departed Johnson Creek (3U2) where I was camped at 8:30a.m. for Sulphur Creek Ranch (1D74), mountainous terrain, skies clear and calm. I was alone in the plane. On turning final at Sulphur Creek Ranch about 9 a.m. I was too high. I initiated a slip to lose altitude, but I was too fast and high. I could not salvage the landing and impacted trees at the end of the runway. I learned later that my left wing tip hit the propeller of Cessna 180 (N180X) that was parked beside the runway. My plane caught fire, I escaped with 3rd degree burns.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

On final, when I was too high I should have initiated a go-around.

ADDITIONAL INFORMATION (Please type or print in ink)

Use this space if additional space is needed for any answers.

Damage to the N180X was minor in that my plane only hit one blade of the prop, but substantial because it rendered the plane unworthy, and it presumably will need an engine overhaul.
