Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Aircraft Burned completely, Damage to Citrus Grove

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

The Day of the accident I ferried the Aircraft from KS (3K59) to the airport where the accident occurred in Somerton, AZ (A225). I Departed Kansas around 9:30 A.M. Central time and arrived at A225 around 2 p.m. MST. After arrival maintenance ^{Daylight} crew worked to set the aircraft up to spray at night on produce. At one point in the afternoon Matt Fieldgrove and I discussed what chemical had been in the hopper last. It was decided the hopper needed to be cleaned and the chemical neutralized. At that point Matt instructed an employee to fill the Hopper and add a neutralizer. I was present when this occurred.

Several hours later it was decided that I would take the aircraft up empty to get used to the area at night. Matt and I tested and set up the lights all of which worked except for the hopper light. I then back taxied to runway 28 to the load pad where I refueled the Aircraft.

As I prepared to take off I pulled forward and centered the aircraft on the runway not using the entire length of the runway still under the assumption the hopper was empty. I slowly advanced the throttle as I passed about half way down the runway I was slow for the amount of throttle I had in and for as far as ~~the~~ ~~roll~~ my take off roll was, but my tail had just started to come up and I was at an air speed where the airplane should have started flying if empty.

Although I had used up most of the runway I thought the Aircraft was close to flying, again under the assumption the hopper was empty, so I dumped in the rest of the throttle I had left, instead of aborting take off. At that point the Aircraft never brake ~~down~~ Ground. So a short distance from the end of the runway I throttled back and started to brake. The Aircraft went off of the end of the runway and impacted the Citrus Grove that was immediately off the end of the runway. As soon as the aircraft came to a rest it caught on fire. At that point I exited the aircraft and the Citrus Grove.
