Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft destroyed.

No other property damaged.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

At appx 1530 pacific time A/C departed remote heliport on sloped logged forest land for spray operation

While finishing spray load during remote Forestry application in steep logging terrain A/C had 2 loud compressor stalls with slight yaw to left .

Power was decreased and turned downslope to allow for engine recovery at which time continuous compressor stalls began and rpm began to decay.

A/C continued downhill hoping to buy time for rpm recovery.

Realizing continued flight was not an option nose was turned toward uphill and pitch pull to cushion landing applied.

Main rotor blades contacted uphill and a/c rolled clockwise downhill resting nose down on left side.

Engine was still running upon exit.
