Date Report Received

6-12-2020

I, Cole Correia am a Pilot for Auburn Ravine Applicators. This is my written account of the incident that took place on 06-04-2020 at approximately 6:00 am. My location was one-mile North of Nicolaus Road and one-half mile West of Brewer Road where the accident occurred.

The sky was clear and wind was blowing South- East at 3 mph. There had been light outside for about 45 minutes. I had just landed to get my second load. I loaded up 385 gallons and had a full tank of fuel. I started my takeoff roll and as soon as my tailwheel started to lift off the ground, I felt my left brake lock up. It pulled me hard to the left. I corrected it with full right rudder and it straightened out for a split second. Then it locked up a second time but this time I couldn't correct it. By that time, I was going about 50 mph. I knew it was going to pull me off the runway into the rice field. I pulled the stick back to see if I could get the plane flying but I didn't have enough airspeed to keep the plane up. I barely made it off the east side of the runway before the plane touched down in the flooded field. As soon as the main gear fell in the mud the plane instantly flipped upside down. I remember hanging upside down watching the whole load of chemical pour out of the plane into the cockpit and the surrounding area. I unhooked my harness as fast as I could and was able to crawl out of the left window. When I was trying to get away from the plane, I was pulled back by the cord that attached my helmet to the radio. I couldn't get the cord to disconnect so I had to take my helmet off and leave it in the field. I then waded through all the chemical and jet fuel to get back onto the runway. I immediately took off my flight suit, flight shoes, shirt, and socks. I checked my body for any bleeding or broken bones. I didn't see any injuries so I sat down on the runway to try figure out what had just happened. After I sat down for a minute or two, I walked down the runway to where the loader truck was. When I was walking back to the truck, I called my boss, Dave Foster, and told him what had happened. My crew didn't realize I had crashed because they had started mixing the next load as soon as I started taking off. When I got back to the truck, I took off my shorts and started to wash the chemical off my body. I rinsed with water and soap for about 15 minutes. My boss came and picked me up and everybody, including the crew went back to the hangar.

After I got back the hangar my wife picked me up and took me to the ER at Kaiser in Roseville. I wanted to get an evaluation because I had just been covered in chemical, I had some bruising on my back and left ankle, and my eyes were burning. I received an eye flush while I was there. I didn't appear to have any other serious injuries. After I left the ER, I went to an eye doctor to get a thorough eye exam. The eye doctor said there was no damage to my eyes at that time. I was given antibiotic eye drop to use for one week. No follow up appointment was scheduled. I continue to monitor the bruising on my back and ankle.
