

RECORD OF CONVERSATION

Albert P. Nixon
Senior Aviation Accident Investigator
Western Pacific Region

Date: September 2, 2022
Person Contacted: Officer Tyler Robinson (United States Forest Service)
NTSB Accident Number: WPR20LA304

Narrative:

On a conversation with Tyler Robinson, the following is a summary of what he stated:

- He was the first officer on the scene of the accident.
- He talked to one witness who pointed out the general direction of the airplane.
- He and a Search and Rescue member picked up the smell of fuel about 75 yards from the wreckage.
- According to one of the Search and Rescue members who was a pilot in the club that the accident airplane was part of; the accident pilot liked to land from the north since the taxi was shorter.
- The weather was not great.
 - There was haze from the fire and visibility was more than a mile, and probably between one to three miles.
- Where the accident site was located, was dark, and there were no lights on the ground nearby.
- The surviving occupant did not talk while awaiting transportation to the hospital.
