

Joshua Cawthra
Senior Aviation Accident Investigator
Aviation - Western Pacific Region

Date: November 2, 2020

Subject: WPR21FA025 - Record of Conversation

Contact: Shane - Friend of the pilot

During a telephone conversation, the friend of the pilot reported that the pilot recently had learned how to perform rolls in another make/model airplane, however, did not specify which model or the exact date they had learned the maneuver. They further reported that the pilot had recently lost engine power while at the Orange County Airport, Santa Ana, California due to not switching from the auxiliary to main fuel tanks.
