Hi Deven, Stephen, Sean,

ForeFlight introduced a dedicated Timer feature into the app in version 12.5 of the app in June 2020, however the version of the app on the iPad mini 2 that is signed-in to his account is still 12.0.1, so it appears that he had not updated the app version past 12.5 and therefore there would not have been a dedicated timer feature in the app for him.

Best regards,

-Josh
