Tim Dickerson -

Pilot was at the fuel pit sitting in the right seat.
Started engine at what seemed like full throttle.
Engine sounded normal while taxi to run-up.
Did not hear the run-up.

During T.O. Roll, Engine was popping & backfiring.
AC took off & started to climb. Gradual left turn.
Engine quit "Alt Unknown" AC did a hard right hand
180 back to runway.

Tim said he saw the PIC fighting the controls. Trying
to get the nose down.

Time Frame - 1417 Taxi / 1420 Takeoff

During approach to runway, Aircraft stalled, rolled to
the left & impacted ground near verticle.
Nose & left wing contacting at about the same time.
