Time: 1922 mountain daylight time
Airplane: N354M, Beech S35

B. AIRPORT INFORMATION

IIC Joshua Cawthra
National Transportation Safety Board
Federal Way, WA

C. DETAILS OF THE EXAMINATION

1.0 Airport Information

The private airport featured a single asphalt runway, oriented on an east-west heading. The runway was about 4,696 ft in length, of which, the western 3,100 ft of the runway surface was asphalt. The remaining runway surface was comprised of dirt and gravel. The runway was not equipped with runway lights or any approach angle indicating equipment. Open fields paralleled the runway throughout a majority of the length of the runway.
