Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Helicopter was submerged in the 12 ft. of water. Rotor was bent in multiple ways and tail boom was damaged. See Attached pictures for further information.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Statement Helicopter accident October 16th, 2020

Upon taking off in the cul de sac of property located on the top part of Spring Mountain Motorsports, I flew South East toward the 4-acre recreational lake. The time was approximately 09:30 at take-off. While approaching the lake, I was in a slow forward hover above the water. The sun glare was coming off the water, and I lost visual orientation with water and sky. When I realized that we were too low and saw the water on nose, I tried to pull up on the collective in an attempt to raise the altitude but was unable to do so. Realizing that I couldn't save it, I turned the helicopter on its side to stop the main rotor. The front doors were off, and all three of us exited the helicopter. Lindsay Brewer and Keven Zeni were both on one side of helicopter, I was on the other. We swam a short distance where an island is in the lake. The helicopter went down very rapidly in about 12 feet of water. It's a swimmable lake with very clear water.

There were no mechanical issues with the aircraft.

The above is to the best of my knowledge of the events as they unfolded.

John Morris

Addendum to the above statement 10/23/20

The exact time of the accident was 10:00 Am on 10/16/2020

Take off was more likely some time between 9:55 and 9:57 AM

The heading was 127 degrees South East at 36:9:59 N 115:54:18 W, elevation 2,790 ft.

The sun was directly off the nose of the helicopter with significant glare coming off of the lake. I was unable to tell the difference between the horizon and the ground (water). When I realized we were too low and water began to splash on the left hand side of the bubble, I tried to pull up but quickly realized I wasn't going to be able to, so I turned the helicopter on its left side to stop the rotor in the water. The helicopter sank rapidly but we were able to unbuckle and exit quickly and swim approx. 40 ft to an island in the center of the lake. We were then picked up and taken to shore by a staff member of Spring Mountain Motorsports. Fire department and paramedics were on scene. All passengers and myself were checked out with little injury. Keven Zeni had minor cuts on his arms and Lindsay Brewer had a bump on her head. She later had a ct scan that came back clear. Everyone left the scene on their own, without assistance. A few hours later, a crane was able to lift the helicopter out of the water. It is currently stored at Spring Mountain Raceway.

The above is to the best of my knowledge of the events as they unfolded.

John Morris

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This could have been prevented with a higher flight path over the water.
