Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Following landing the aircraft pitched over onto the top of the wings and fuselage. The propeller spinner was crushed. All 3 propeller blades were bent and the propeller hub damaged. The engine experienced sudden stoppage and probable propeller flange damage. The engine cowling received crush damage. The windshield was cracked. Both wings experienced impact damage and crushing at the tips and the pilot side wing experienced buckling at the interface of the flaps and wing. The pilot's side wing strut was buckled. The rudder and vertical stabilizer received crush damage due to impact with the runway surface. The horizontal stabilizer was not damaged during the accident but received crush damage during aircraft removal from the runway. The fuselage top (roof of cabin), lifting rings and antennas received crush damage due to impact with the runway surface. The pilot's side fuel tank was ruptured.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

DEPT time 9:50 AM @ KRLD - I took off in a company-owned Cessna 185 to work on wheel landings with a previous employee of the company. We remained in the traffic pattern for RWY 26. Upon landing, I left some forward pressure on the stick to keep weight off the tail and on the main gear. I applied pressure to the brakes and reduced the power. However, the braking action coupled with the reduction in power caused the aircraft to tilt forward and the prop stuck the ground, ultimately resulting in a flip onto its back. We immediately pulled the fuel shut-off and were able to exit the aircraft unharmed. A team of airport employees helped to contact NTSB.
