Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

No property damage. Aircraft landed hard on main gear. Sandy soil cause plane to stand on nose and flipped on back. Damage d both wings and rudder sections.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Started morning flight at Tucson Az., and flew to Sedona Az. for breakfast and fuel. checked weather at Page and called Monument Valley. We decided to fly direct Monument Valley. When we arrived, we found a lot of turbulence. Wind socks indicated light winds. I saw first plane land when I was on down wind, saw second plane land when I was on base leg. I turned final about 100ft above ground. Noticed quartering tail wind to cross wind. on short final, felt ~~sink~~ sink rate increased and recovered and then a huge sink rate, applied full power then hit ground 200ft before runway. (KPGA: winds 15 kts) (UT25; called to let them know I was arriving, winds calm. wind storm came in unexpected.)
