National Transportation Safety Board
Office of Aviation Safety – Western Pacific Region

NTSB Accident Number: WPR21LA193
Aircraft Registration & Make/Model: N47AF, Cessna 172R
Accident Location: Chandler, AZ
Accident Date: 5/10/2021

Narrative:

The following is a synopsis of the information provided by board members from Stellar Airpark in an email on June 1, 2021:

Shortly after the accident, members of Stellar Airpark verified that the runway lights were not only functional but were capable of being remotely illuminated via their CTAF as stated in the AFD. The lights were turned on at approximately 2025 local time by using a handheld radio tuned to 122.975. The runway lights remained illuminated for the normal 20-minute cycle.
