NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Performed preflight, taxi, runup and was airborne at 1C9 (Frazier Lake) runway 23 at 11:35 PDT.

Performed approximately 10 uneventful full stop landings before heading to KCVH (Hollister) for fuel.

Landed runway 24 at Hollister around 12:45 PDT and topped off N75016 with fuel.

Performed a preflight and departed back to 1C9 around 13:35 PDT.

Did some air work on the way back to 1C9 and then performed a full stop landing at Frazier lake runway 23 followed by another take-off.

On this last take-off during the climb out at approximately 500-600 FT MSL the power started to steadily decline to the point that altitude could no longer be sustained and a forced off field landing was performed in the adjacent field. There were no unusual sounds from the engine but RPM seemed to drop and thrust was diminishing.

There were telephone wires ahead and the airplane was directed away to a descending right downwind to land in the dirt field that is adjacent to the airport under and just clear of high power lines. The aircraft was forced to land with a 17 knot tail wind.
