We flew a right-handed pattern around the field and approached the field from the west landing to the east. We flew a normal approach and landed 1/3 of the way down the field we were a little fast approx. 40 mph we did a wheel landing and rolled down the field. As we reached the last 1/3 of the field I started to get nervous and hit the brakes very hard. At that point, we nosed over coming to a rest upside down. We unbuckled our seat belts and climbed out. After making sure my fiancé (Perri Schultz) was safe I climbed back into the plane and made sure everything was shut down and secure. The first responders arrived and assisted with Perri's minor injuries she was later transported to the hospital for the laceration on her head. My father used our backhoe to flip the plane back on to its wheels and moved it in to the barn.
