NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Departed runway 17. Turned Xwind in the climb. Turned North bound towards MLF (vectoring away from runway slightly) During climb, with the CHT's looking higher than normal for climb out reduced power slightly. Suddenly all power (thrust) seemed to disappear. I thought I could return to Runway 17. Pushed everything forward, switched tanks (both tanks had over 50% fuel) w no change in power. Could not make the runway. Forced landing between golf course & homes on slight up hill 13 SM from runway threshold. Perhaps could've made the runway if not for the hill due N of it. Ejected the plane w my dog & separated from it. When it looked safe from fire, turned all electrics off, removed key, closed the door & called a friend for ride to clinic due to head wound. Police were en route, we hailed them, told them all was OK. No serious needed. later w help from friends & on all terrain Forklift, we recovered the aircraft & reloaded it to my hangar at UT47.
