Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

exhaust caught sagebrush on fire subsequently catching PPC on fire and destroying aircraft.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

In anticipation of selling the PPC I was flying, I had changed the connection to the throttle quadrant. It was originally connected to pull back for full throttle. Since i was selling the ppc I changed it to push forward for full throttle. This is how all Six Chuter PPC are connected.

I departed to the North on our pasture field on the North end of Toquerville. Flying North West I started following the new bypass road currently being built along the west side of Toquerville at an altitude of about 50 feet. After about 5 minutes into the flight I was attempting to fly over powerlines which run north and south but cross the new road I was following. I had pulled the throttle back to gain altitude which immediately cut engine power. I had forgotten I had changed the throttle linkage about 2 weeks prior in anticipation of selling the PPC. There was no possibility of being able to clear the powerlines once the engine went to idle. I immediately turned hard left which caused flying into rising terrain.

I am embarrassed to admit it but the aircraft did exactly what I told it to do.

RECOMMENDATION (How could this accident/incident have been prevented?)**Operator/Owner Safety Recommendation**

This was purely pilot error. Muscle memory is what we strive to achieve. This time, once the throttle linkage was changed I should have flown more away from any obstacles to reestablish the muscle memory of the reversed throttle positioning.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)
