Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Left wing tip and left elevator sustained damage.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Practicing wheel landings to complete stops, on short final I touched mains and maintained directional control and aircraft speed reduced naturally until the tail came down and tailwheel touched runway surface, at this point the aircraft yawed slightly the the left and directional control was lost resulting in the left wing tip and left elevator to contact runway surface during a ground loop. There was no damage to the engine or prop.
