**Description of Damage to Aircraft and Other Property** *(Use additional sheet if necessary)*

Damage to aircraft right elevator balance horn. Damage to one blade of three blade propeller.  
Damage to garden fence rail.

**NARRATIVE HISTORY OF FLIGHT** *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was invited to participate in an event for a group of real estate brokers at this airport property scheduled for May 14. I inspected the property from the ground on April 19 and deemed it of adequate length. Prior to the scheduled event some promotional video was to be made that had me land on the property. That was scheduled for April 29.

On April 29 at approximately 11am I departed my home base, Camas Grove Field, 1W1, and flew over the property to inspect it from the air and then practised several short field takeoff and landings on the grass runway at Scappoose, KSPB. The film crew was not quite set up so I waited on the ground at KSPB for about 20 minutes during which time a rainshower passed overhead (about noon).

I left KSPB at approximately 12:20pm and flew to the property, made two low passes and then set up my final approach. The runway has a slight downslope, I had about a 5 knot tailwind and with the recent passage of the rainshower the grass was wet and provided limited braking action. I slid to the end of the runway and impacted a garden fence which caught the elevator balance horn. The propeller impacted a fence rail. I was not injured.
