Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Cowl nose bowl was heavily damaged. One wing strut was bent. Inspection to date has found no other damage other than scratches.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

This was a pleasure flight. Weather was checked by logging into FAA aviationweather.gov web site which confirmed that visibility was unrestricted and winds were light. I took off from E98, did a touch-and-go and M10 (Mountain Air) then headed toward Estancia Muni (E92). On the way I passed near several large playa lakes.

I have known other pilots to land on these lakes and have seen tracks of other aircraft which have done touch-and-go landings on them, so I decided to try it. I did a wheel landing and traveled for ~200 yds, applied power to take off then hit very soft mud. The airplane sank in the mud and rapidly decelerated. I pulled back the power but the plane had enough momentum to slowly go over nose first into the mud.

I was not injured in any way.

I exited the airplane and called 911. My ELT activated and I received a call from the USAF search and rescue. I informed them of the accident and they asked me to turn the ELT off. Over the next couple of hours I talked to the Torrance County Sheriff's office, the FAA, and the landowner. The nearest farm house was ~1.5 miles from the accident site.

The FAA instructed me not to move the airplane until they considered the situation.

It had not rained for about 2 months and the playa lake was very dry. However, underneath a ~2 inch crust of salt there is very thick mud. Once a vehicle or person breaks through the crust which is difficult to get out of. The landowner told me that other planes had suffered the same fate as me over the years.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I should have been aware of the physical conditions of playa lakes in NM.

I should not be performing off-airport landings.
