I'm one of the camp hosts at a Forest Service horse camp 14 miles west of Buffalo WY. We were out riding on Thursday and heard the plane go down. It was 12:29pm. The plane sounded normal until just before impact. We heard a distinct over-rev of the engine and then heard the impact. We were approximately 4 miles or less south of the crash site straight line.

There were 3 of us riding at the time.

Thank you,
