Flight Testing Completion Endorsement Example

The following is an example showing the endorsement statement used to document completion of phase 1 flight testing in accordance with experimental amateur-built aircraft operating limitations assigned by the FAA at the time of airworthiness certificate issuance.

I certify that the prescribed flight test has been completed and the aircraft is controllable throughout its normal range of speeds and throughout all maneuvers to be executed, has no hazardous operating characteristics or design features, and is safe for operation.

Name: A van Niekerk

Signature: _____

Certificate No.: _____

Type of Certificate: Commercial SEP instrument

Date: 5-13-23

Aircraft Time in Service: 21.6

NOTE: Check your aircraft's operating limitation's for the exact verbiage, as it may differ from what is shown here. You must use the verbiage found in your aircraft's operating limitations.
