Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

A Propeller strike occurred so the motor and Prop are ruined. The left wing tip is damaged along with left wing struts. The vertical stabilizer and rudder are damaged and new fabric will be needed to cover the fuselage.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On February 7th, 2023 myself and my father departed our dirt strip near Hyattville, WY around 5:00am headed for KLND in Lander. While performing a run-up on the Maule M7-260C I noticed that my left brake was a little softer than usual but it was still functioning so we departed. Winds at KLND were reported variable from 050 so we entered left traffic for runway 04. As we turned final I felt a small tail wind but touched down anyway. Instantly the airplane was pulling to the right so I applied full left brake and rudder. The airplane continued pulling right so I applied full power and attempted a go-around. Since I couldn't turn the plane back to the left, our landing gear caught the snow piled along the edge of runway 04 as we were taking off. The airplane entered into a nose dive and we impacted the ground nose first, causing a propeller strike and inverting the aircraft.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

If I would have aborted the flight because I knew my left brake was not functioning properly, we could have avoided the accident.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
