Description of Damage to Aircraft and Other Property <i>(Use additional sheet if necessary)</i> Bent propeller blades. Scrapping of the belly.		
NARRATIVE HISTORY OF FLIGHT <i>(Please type or print in ink)</i>		
Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.		
June 9, 2023, I was alone in my 1983 Cessna P210. I was on approach to KMYV. I made the necessary radio calls broadcasting my approach and intent to land. I was on final and began my pre-landing checklist and was about to drop the gear when another aircraft radioed that he intended to land at KMYV and he would cut in front of me, land and immediately exit the runway. In an abundance of caution, I decided to avoid the potential for a mid-air or landing collision, and decided to discontinue the approach. I departed the approach and performed a 360. I then entered the approach at approximately the same location as my exit. Having my normal pre-landing checklist interrupted, I continued to land and failed to extend the gear. I landed on the belly of the aircraft. This resulted in propeller damage and skin rash on the aircraft underside. There was no damage to any other property.
