Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Cause of Accident: Ground Loop

07/22/2023 8:30am Arrived at KRED with the hopes of flying N53132. Robert Ewald owns two 1941 Stearman. We have been flying formation flights together for the past five years. I did a preflight checking the fuel, oil, HYD quantity of GEAR struts and did a WALK-AROUND.

9:30am We started both Stearman and taxied to Runway 16 (Grass). Robert Ewald was first and I followed in N53132. We did checklists, run-ups then departed. Robert departed first then I departed 2 min later. We joined up and flew formation for about 10 minutes then returned to KRED.

9:57am We flew over KRED at 1000AFL. The wind had increased a bit, judging by the windsack, but it looked like a very manageable crosswind. The wind was 210-230 at 6-10 kts.

10:00am The approach was stable as we entered final from a left base that was preceded by a left downwind. We touched down with a decent landing tracking straight down the runway. The Stearman was slowing and the tail was coming down. A small gust pushed the tail to the right and I countered with right rudder (the nose was going left). The rudder had little effect. I was getting my feet up to the brakes but it was too late. The Stearman struck the fence on the left side of the runway. I used differential braking to try and keep the Stearman upright. We came to a stop upright and uninjured. I shut down the engine.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

① I have been fortunate to get some good experience in tailwheel Aircraft. I have flown C-180s, Aeronca champs, Husky and Super-cubs. The Stearman is a whole different animal. If I decide to fly the Stearman again, I will start each summer Stearman flying season by getting a Stearman refresher with an instructor who mainly flies the Stearman. There are several outstanding instructors around the country.

② Crosswinds: I am going to dial down my personal Stearman crosswind limit. I will shoot for less than 5 knots.

ADDITIONAL INFORMATION (Please type or print in ink)

Use this space if additional space is needed for any answers.

I have a new respect for the Stearman. I want to learn from this and be a better aviator in any aircraft that I fly.

It's a good lesson that we can always be better.

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE
