☐ On-Ground ☐ Unknown

Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Explosion at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

*Aircraft: Empennage completely sheared off fuselage, right wing separated from mid wing section, left wing substantial damage, canopy destroyed, propeller bend backwards, engine likely internal damage.
Other property: None*

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

At the conclusion of a short flight from KCLM to KRNT the aircraft entered the General KRNT VFR Arrival Procedure "Factoria Arrival" in the vicinity of the Water Tower. At that point the heading was changed to a 45deg entry to the right hand pattern for RWY 34 and the aircraft was configured for landing (GUMP). Shortly thereafter the engine lost power and the instrument panel flickered. Upon immediate application of full throttle, power returned as well as instrument displays. KRNT tower was alerted to this incident. Within a very short time frame (few seconds) engine power vanished and all instruments turned dark. A corresponding announcement was made to the tower also stating the intend to immediately land at midfield. After flying perpendicular to RWY16/34 avoiding airliners parked in that area, a slight right turn was initiated close to taxiway B to align with RWY34. The right wing dropped and due to low altitude struck the ground. The aircraft hit the ground and was severely damaged. Upon removal from the crash site, fuel leaking from the wreck was observed.
