

Dan Baker
Senior Air Safety Investigator
AS-WPR

Date: February 6, 2025

Subject: WPR23LA321, Pilot Clarification of Statement

Contact: Sabrina Alesna, Pilot

Ms. Alesna originally reported that she pumped the manual gear handle “over 55 times” and felt the handle was stiff when she stopped pumping. During a telephone conversation on this date, she clarified that she counted both the down and up stroke of the manual gear handle as one “time”, or cycle, so she pumped the manual gear handle over 55 cycles.
