Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Aircraft's horizontal and elevator was bent on the left side with minor damage to wing tip.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Upon picking up passengers on the upriver side of the runway I taxied downstream for a southbound departure. I added power and about 200ft down the airstrip the left gear leg broke off the airplane causing the aircraft to veer off the runway to the left. Recognizing the issue I pulled power and mixture immediately. The aircraft came to rest just off the left side of the runway. I made sure no one was injured and helped the passengers out.
